July, 1996

August 20, 1996

Mr. Bill Olson
New Mexico Oil Conservation Division
2040 South Pacheco Street
Santa Fe, New Mexico 87505

RECEIVED

AUG 20 1996

Environmental Bureau
Oil Conservation Division

RE: Production Pit Closure Submittal

Dear Mr. Olson:

Enclosed herein are data packages for work completed at El Paso Field Services (EPFS) production pit locations where shallow groundwater was encountered during closure operations. The data included within indicate that these sites merit closure per the New Mexico Oil Conservation Division's (NMOCD) Vulnerable Area Orders and EPFS's closure plan submitted to the NMOCD. In front of each data package is a site specific checklist that indicates the work completed at each location. Each checklist is followed by a short summary of the activities and results of data collected to support closure.

Sincerely,

El Paso Field Services

Sandra Miller
Senior Environmental Manager

Pit was excavated to 6 feet beneath ground surface. Headspace soil readings from excavation bottom were 197 parts per million. Soil analytical were as follows; benzene - 2.32 mg/kg, total BTEX - 146 mg/kg, TPH - 1,970 mg/kg.

One soil boring was completed and no monitoring well installed. Groundwater was encountered at 17 feet. No soil or groundwater samples were collected.

Pit was re-excavated to 16 feet beneath ground surface. Headspace soil readings were as follows: pit bottom composite- 4 ppm. Soil analytical from a composite sample was as follows; benzene - < .5 mg/kg, total BTEX - 3 mg/kg, TPH - <10 mg/kg.

Subject to Section 7 of the conditions, if this agreement is to be delivered to the consignee without recourse to the consignor, the consignor shall sign the following statement:

The carrier shall not make delivery of this shipment without payment of freight and all other lawful charges.

Signature of Consignor:

Where the applicable law prohibits, specify a limitation of the carrier liability. NALC Item 172). If there is no release or value declaration by passenger, and the shipper does not declare a value or release the carrier's liability, that liability shall be limited to the extent provided by NALC Item 172. California maritime shipments must comply with NALC Item 172.

RECEIVED, subject to the classification and liability listed herein in effect on the date of issue of this Bill of Lading. The property described above in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, configured, and delivered as indicated above which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed as to each carrier of all or any of said property over all or any portion of said route to destination and as to each party at any time involved in all of any said property, that every service to be performed hereunder shall be subject to all the bill of lading terms and conditions in this bill of lading.

Shipper hereby certifies that it is familiar with all the bill of lading terms and conditions in the governing classification and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

This is to certify that the above named materials are properly classified, described, packaged, marked and labeled and are in proper condition for transport in conformity with applicable regulations of the Department of Transportation.

RECEIVED subject to the clauses and lawfully filed tariffs in effect on the date of issue of this Bill of Lading, the Goods are described above in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned, and destined as indicated above which said carrier, the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier, on the route to said destination. It is mutually agreed as to each carrier of all or any of said property over all or any portion of said route to destination and as to each party at any time interested in all or any said property, that every service to be performed hereunder shall be subject to all the bills of lading terms and conditions in the governing classification on the date of shipment. Shipper hereby certifies that he is familiar with all the bill of lading terms and conditions in the governing classification and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

This is to certify that the above-named materials are properly classified, described, packaged, marked and labeled and are in proper condition for transportation according to the applicable regulations of the Department of Transportation.

RECEIVED - Subject to the classification and lawfully filed tariffs in effect on the date of issue of this Bill of Lading, the property described above in apparent good order, except as noted hereon, and condition of contents under the contract agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to another carrier to said destination. It is mutually agreed as to each carrier of all or of said property over all or any portion of said route to destination and as to each party at any time interested in all or any said property, that every service to be performed hereunder shall be subject to all the bill of lading terms and conditions in the governing classification on the date of shipment. Shipper hereby certifies that he is familiar with all the bill of lading terms and conditions in the governing classification and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

This is to certify that the above-named materials are properly classified, described, packaged, marked and labeled in accordance with applicable regulations of the Department of Transportation.
