REPORTS

DATE:

July, 1996

August 20, 1996

Mr. Bill Olson
New Mexico Oil Conservation Division
2040 South Pacheco Street
Santa Fe, New Mexico 87505

RECEIVED

AUG 20 1996

Environmental Bureau
Oil Conservation Division

RE: Production Pit Closure Submittal

Dear Mr. Olson:

Enclosed herein are data packages for work completed at El Paso Field Services (EPFS) production pit locations where shallow groundwater was encountered during closure operations. The data included within indicate that these sites merit closure per the New Mexico Oil Conservation Division's (NMOCD) Vulnerable Area Orders and EPFS's closure plan submitted to the NMOCD. In front of each data package is a site specific checklist that indicates the work completed at each location. Each checklist is followed by a short summary of the activities and results of data collected to support closure.

Sincerely,

El Paso Field Services

Sandra Miller
Senior Environmental Manager

Miles Federal #1E
Meter Code 94495

Pit was excavated to 12 feet beneath ground surface. The headspace soil reading from excavation bottom was 910 parts per million. Soil analytical were as follows; benzene - 0.9 mg/kg, total BTEX - 130 mg/kg, TPH - 15,200 mg/kg.

One soil boring was completed and no monitoring well was installed. Groundwater was encountered at 13.5 feet beneath ground surface.

The pit was re-excavated to 21 feet beneath ground surface. Headspace soil readings were as follows: pit bottom- 148 ppm. Soil analytical were as follows; benzene - <0.5 mg/kg, total BTEX - 3 mg/kg, TPH - 82.3 mg/kg. A trickle of groundwater was encountered, after the pit sat open over a weekend, enough water had collected to allow for sampling. A sample was collected from the excavation and laboratory analytical results indicated benzene - 31.1 ug/L, toluene - 131 ug/L, ethylbenzene - 11 ug/L, xylenes - 467 ug/L.

A RECON® survey was conducted and three groundwater samples were collected on the assumed downgradient side of the pit. The samples were collected and analyzed using a laboratory-grade gas chromatograph by Philip Environmental's RECON® System. The results were as follows: probe hole (PH) -01, benzene - 3 ug/L, toluene - 9 ug/L, ethylbenzene - <1 ug/L, xylenes - 4 ug/L. PH-02, benzene - <1 ug/L, toluene - 3 ug/L, ethylbenzene - <1 ug/L, xylenes - 2 ug/L. PH-03, benzene - <1 ug/L, toluene - <1 ug/L, ethylbenzene - <1 ug/L, xylenes - <1 ug/L.

NOTE - Where the rate is dependent on value, shippers are required to state specifically in writing the agreed or declared value of the property. The agreed or declared value of the property is hereby specifically stated by the shipper to be not exceeding \$ Per.

RECEIVED, subject to the classification and liability, filed in effect on the date of issue of this Bill of Lading, the property described above in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned, and destined as indicated above, which the carrier (and its servants) agree to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed that all or any of said property over all or any portion of said route to destination and as to each party at any time interested in all or any said property, that every service to be performed hereunder shall be subject to all the bill of lading terms and conditions in the governing classification and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his servants.

This is to certify that the above named materials are properly classified, packaged, marked and labeled in accordance with the provisions of the Department of Transportation.

Subject to Section 7 of the conditions, if the shipment is to be delivered to the consignee without release on the consignee, the consignee shall sign the following statement:

(The carrier shall not make delivery of this shipment without payment of freight and all other lawful charges.)

(Signature of Consignee)

NOTE - Where the rate is dependent on value, shippers are required to state specifically in writing the agreed or declared value of the property. The agreed or declared value of the property is hereby specifically stated by the shipper to be not exceeding \$

Per

RECEIVED, subject to the classifications and lawfully filed tariffs in effect on the date of issue of this Bill of Lading, the property described above in apparent good order, except as noted contents and condition of contents of packages (unknown), marked, consigned, and destined as indicated above which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed as to each carrier of all or any of said property over all or any portion of said route to destination and as to each party at any time interested in all or any said property, that every service to be performed hereunder shall be subject to all the bill of lading conditions and the governing classification and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

Shipper hereby certifies that he is familiar with all the bill of lading terms and conditions in the governing classification and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

This is to certify that the above named materials are properly classified, described, packaged, marked and labeled and are in proper condition for transportation according to the applicable regulations of the Department of Transportation.

Subject to Section 7 of the conditions of this Bill of Lading, the property described above in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned, and destined as indicated above which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed as to each carrier of all or any of said property over all or any portion of said route to destination, and as to each party at any time interested in all or any said property, that every service to be performed hereunder shall be subject to all the bill of lading conditions and terms and conditions of the carrier and the shipper and accepted for himself and his assigns.

The carrier shall make delivery of this shipment without payment of freight and all other lawful charges.

(Signature of Consignor)

This is to certify that the above named materials are properly classified, described, packaged, marked and labeled and are in proper condition for transportation according to the applicable regulations of the Department of Transportation.

RECEIVED, subject to the classifications and lawfully filed tariffs in effect on the date of issue of this Bill of Lading, the property described above in apparent good order, except as noted (contents and condition of containers of packages unknown), marked, consigned, and destined as indicated above which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed as to each carrier of all or any of said property over all or any portion of said route to destination and as to each party at any time interested in all or any said property, that every service to be performed hereunder shall be subject to all the bill of lading terms and conditions in the governing classification on the date of shipment.

Shippers hereby certify that they are familiar with all the bill of lading terms and conditions in the governing classification and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

This is to certify that the above named materials are properly classified, described, packaged, marked and labeled and are in proper condition for transportation according to the applicable regulations of the Department of Transportation.
