REPORTS

DATE:

July, 1996

August 20, 1996

Mr. Bill Olson
New Mexico Oil Conservation Division
2040 South Pacheco Street
Santa Fe, New Mexico 87505

RECEIVED

AUG 20 1996

Environmental Bureau
Oil Conservation Division

RE: Production Pit Closure Submittal

Dear Mr. Olson:

Enclosed herein are data packages for work completed at El Paso Field Services (EPFS) production pit locations where shallow groundwater was encountered during closure operations. The data included within indicate that these sites merit closure per the New Mexico Oil Conservation Division's (NMOCD) Vulnerable Area Orders and EPFS's closure plan submitted to the NMOCD. In front of each data package is a site specific checklist that indicates the work completed at each location. Each checklist is followed by a short summary of the activities and results of data collected to support closure.

Sincerely,

El Paso Field Services

Sandra Miller
Senior Environmental Manager

Valdez #2
Meter Code 94899

Pit was excavated to 12 feet beneath ground surface. Headspace soil readings from excavation bottom were 55 parts per million. Soil analytical were as follows; benzene - < .5 mg/kg, total BTEX - 2.69 mg/kg, TPH - 893 mg/kg.

One soil boring was completed and a monitoring well installed. Groundwater was encountered at 12.5 feet. Initial groundwater analytical were as follows; benzene - 2 ug/L, toluene - <.5 ug/L, ethylbenzene - <.5 ug/L, xylenes - 0.5 ug/l.

Pit was re-excavated to 12 feet beneath ground surface. A headspace soil reading was as follows: pit bottom- 80 ppm. Analytical collected from the groundwater in the bottom of the pit were as follows; benzene - 10 ug/L, toluene - < 2.5 ug/L, ethylbenzene - 7.6 ug/L, xylenes - 27.5 ug/l.

NOTE - Where the rate is dependent on value, shippers are required to state specifically in writing the agreed or declared value of the property. The agreed or declared value of the property is hereby specifically stated by the shipper to be not exceeding \$ 1000 Per unit

RECEIVED, subject to the classifications and lawfully fixed tariffs in effect on the date of issue of this Bill of Lading, the property described above in apparent good order, except as noted (contents and condition of contents of packages unknown), marked, consigned, and destined as indicated above which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery at said destination, it on its route, otherwise to deliver to another carrier on the route to said destination. It is mutually agreed as to each carrier of all or part of the property that the carrier shall be responsible for the property during the time it is in his possession and shall be liable to the shipper for any loss or damage to the property during such time. The shipper hereby certifies that he is familiar with all the bill of lading terms and conditions in the governing classification and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

This is to certify that the above named materials are properly classified, described, packaged, marked and labeled and are in proper condition for transportation according to the applicable regulations of the Department of Transportation
