RE: APACHE JUNCTION CRUDE STATION

Dear Mr. Hawley:

The New Mexico Oil Conservation Division (OCD) has completed a review of Gary Williams Energy's (GWE) January 18, 1996 "APACHE JUNCTION CRUDE STATION" and October 4 - October 31, 1995 "VOLUNTARY CLEAN-UP OF CRUDE OIL TRANSFER FACILITY, APACHE STATION SITE" which were submitted to the OCD by their consultant Tierra Environmental Company, Inc. These documents contain GWE's reports on the investigation and remediation of crude contaminated soils at GWE's Apache Junction Crude Station located in the SE/4 of Sec. 33, T25N, R06W, NMPM, Rio Arriba County, New Mexico.

The closure and remedial actions as contained in the above referenced documents are approved.

Please be advised that OCD approval does relieve GWE of liability should remaining contaminants pose a future threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve GWE of responsibility for compliance with any other federal, state or local laws and/or regulations.

If you have any questions, please call me at (505) 827-7154.

Sincerely,

William C. Olson
