Re: Proposed NSP-40

Dear Miss Renegar:

This office is in receipt of your application for a 160-acre non-standard gas proration unit in the Jalmat Gas Pool consisting of the NE/4 of Section 31, Township 25 South, Range 37 East, NMPM, Lea County, New Mexico. This unit was to have been assigned to your Dyer Well No. 3, located 330' from the East line and 1650' from the North line of Section 31. Further, this office is in receipt of waivers from all of the operators within the said Section 31.

Order R-520, Rule 5 (b), paragraph 5 (b) requires that all operators owning interests within 1500' of the well must be notified of your intention to form a non-standard gas proration unit as well as all of the operators within the same section as the said well. The Gulf Oil Corporation's Arnott "B" lease in Section 32, Township 25 South, Range 37 East, is within 1500' of your Dyer Well No. 3, and therefore the Gulf Oil Corporation must be notified of your intention to form this non-standard gas proration unit.

If you will supply this office with either a waiver from the Gulf Oil Corporation or demonstrate to us that the Gulf Oil Corporation has been notified of your intention, we will give this matter our immediate attention.

Very truly yours,

W. B. Macey  
Secretary - Director

FORT WORTH  
PRODUCTION DIVISIONNew Mexico Oil Conservation Commission  
Santa Fe, New Mexico

Gentlemen:

This is to advise that Gulf Oil Corporation has been given due notice that R. Olsen has made application for a 160-acre non-standard gas proration unit. We hereby waive notice of hearing and advise that we have no objection to the granting of said unit as described below:

Consisting of the NE/4 of Section 31, T-25-S, R-37-E, Jalmat Gas Pool, Lea County, New Mexico, to be assigned to R. Olsen's Dyer Well No. 3, located 330 feet from the east line and 1650 feet from the north line of the NE/4 of said Section 31.

Executed this 3rd day of February, 1955.

Yours very truly,

GULF OIL CORPORATION

In Re: Application for Non-Standard  
Gas Proration Unit for the  
R. Olsen Dyer #3, Lea County  
N E W M E X I C O

Gentlemen:

R. Olsen by this letter hereby makes application for approval of a non-standard gas proration unit for his #3 Dyer well in Lea County, New Mexico, and in connection therewith states the following:

- 6/1/55*
- Lea County*
- 320' to 330'*
- 1980'*
- (a) That the R. Olsen Dyer #3 is located 330 feet from the East line and 1650 feet from the North line of the NE/4 of Section 31, Township 25 South, Range 37 East, and was completed at a total depth of 2977 feet, producing from the Yates formation. The 6-5/8" oil string was set at 2800 feet, producing from open hole.
  - (b) That R. Olsen hereby applies in accordance with Order #R-520, Rule 5, for the formation of a non-standard gas proration unit of the Jalmat gas pool to be comprised of the NE/4 of Section 31-25S-37E, Lea County, New Mexico, consisting of 160 acres.

- (c) That the following operators within said Section 31 have been notified:

Continental Oil Company

Ralph Lowe

Jerry Covington

Stanolind Oil & Gas Company

- (d) That all of the above named operators have executed waivers to notice and hearing on application for said non-standard gas proration unit. That all such waivers have been forwarded to you in triplicate and are now in your possession.

Inasmuch as all the interested operators have executed waivers we respectfully request that you approve the non-standard gas proration unit, consisting of the NE/4 of Section 31-25S-37E.

Yours very truly,

R. OLSEN

In Re: RO-705, Your NSP-40  
NE Section 31-25S-37E  
Lea County, New Mexico

Dear Mr. Macey:

Wish to thank you for your letter of December 7, correcting me on the contents of your former letter covering our Dyer #3 well, on which we are requesting a 160 acre non-standard gas proration unit.

In the last paragraph you state that we should secure waivers from Continental and Gulf. However, it is my understanding that it is only necessary to obtain waivers from the operators within the section affected, which in this case would be Section 31. If that is true, and assuming my map is correct, the Gulf does not own anything in that section, although it does offset us in Section 32. We have requested Continental to furnish waiver, and it should be received within the near future, at which time it will be forwarded to you along with proper application.

If I am wrong about the Gulf, please let me know, and I will immediately contact it. Thanking you for your cooperation, I am

Yours very truly,

R. OLSEN

Re: NSP - 40

Dear Miss Renezar:

This office is in receipt of correspondence indicating your intent to create a non-standard gas proration unit with your Dyer Well No. 3, located in the NE/4 of Section 31, Township 25 South, Range 37 East, NMPM, Lea County, New Mexico. As of this date, we have not received a formal application from you requesting approval of the formation of this gas unit, and until this application is received this office can take no further action.

The letter of November 10, to which you refer, was Administrative Order NSL -4 which gave approval to the non-standard location of this well; however, this does not give per se authority for the formation of a non-standard proration unit.

We are in receipt of waivers to the formation of the non-standard gas proration unit from Stanolind Oil and Gas Company, Ralph Lowe, and Jerry Covington. If you will supply waivers to the formation of this gas unit from the other offset operators, Gulf and Continental, along with your formal application, we will give this matter immediate processing.

Very truly yours,

W. B. MACEY, Secretary-Director

31-25S-37E, Lea County, N. M.

Dear Mr. Macey:

We wish to thank you for your letter of November 10, stating you have granted us an exception to the standard spacing requirements for our #3 Dyer well. Your cooperation is much appreciated.

However, for record purposes, I am enclosing an executed waiver prepared for the signature of Gustave & Ring, but signed by Jerry Covington. We thought you would like to have this on file.

Again thanking you, we are
