Bloomfield, New Mexico 87413

RE: CASE #3R0335
MILES FEDERAL #1E DRIP PIT
SAN JUAN COUNTY, NEW MEXICO

Dear Mr. Harvey:

The New Mexico Oil Conservation Division (OCD) has completed a review of Williams Field Services' (WFS) August 16, 2001 "MILES FEDERAL #1E DRIP PIT REMEDIATION AND CLOSURE REPORT". This document contains the results of WFS soil and ground water remediation activities for an unlined pit site in the San Juan Basin at which ground water contamination was discovered. The document requests closure of the site since ground water has been remediated to below New Mexico Water Quality Control Commission (WQCC) standards as demonstrated in 4 consecutive sampling events. The document also proposes to plug and abandon the site ground water monitoring wells.

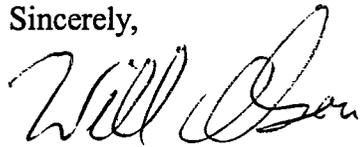

The pit closure/remediation activities and proposed monitor well plugging and abandonment for the site listed below **are approved on the condition that that the monitor wells are plugged and abandoned by cutting the casing off below ground surface and filling the annulus from bottom to top with a cement grout containing 3-5% bentonite.**

1. Miles Federal #1E (Drip pit) Unit N, Sec. 05, T26N, R07W.

Please be advised that OCD approval does not relieve WFS of responsibility if remaining contaminants are found to pose a future threat to surface water, ground water, human health or the environment. In addition, OCD approval does not relieve WFS of responsibility for compliance with any other federal, state, tribal or local laws and regulations.

If you have any questions, please call me at (505) 476-3491.

Sincerely,

A handwritten signature in cursive script that reads "Will Olson". The signature is written in black ink and is positioned above the printed name.
