	<input type="checkbox"/> Non-Routine Fracturing
	<input type="checkbox"/> Water Shut-Off
	<input type="checkbox"/> Conversion to Injection
	<input type="checkbox"/> Dispose Water

(Note: Report results of multiple completion on well Completion or Recompletion Report and Log form)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting and proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

Texaco requests approval to plug and abandon the captioned fresh water well. Due to a lack of downhole information, the proposed P&A is based on our best judgement. Please see the attached P&A procedure.

On 11/30/99, Texaco received a letter from the Bureau of Indian Affairs, Ms. Linda Taylor, requesting us to plug and abandon this fresh water well. According to their records, the well was once used by the Skelly Oil Company and since Getty acquired Skelly and likewise Texaco acquired Getty, it remains our responsibility to close the subject well.

We respectfully request your immediate attention on this matter.

If you require any additional information, please contact Larry Schlotterback @ (505) 325 4397 x17.

14. I hereby certify that the foregoing is true and correct

Signed

*Richard H. Linder*

Conditions of approval, if any:

**Plug and Abandonment Procedure For:**

**Skelly Oil Company  
Gallegos Gallup Sand Unit  
Fresh Water Well #79  
Section 2, T26N, R12W, NMPM  
1965' FNL / 660' FWL**

Texaco Exploration and Production, Inc., 3300 North Butler, Farmington, New Mexico 87401, will conduct the plugging procedure.

1. Rig up swabbing unit on location
2. Run 1" working string to TD (estimated depth 300') *Recorded TO of 258'*  
*4 1/2" casing*
3. Pump Class C cement from bottom to surface
4. As requested by the Bureau of Indian Affairs, casing will be cut off 3-4 feet from surface for plow clearance.
