Bradford,

Thank you so much for the update! I really appreciate it. I will look out for that RF Permit Number. For some reason my office's internet security set up blocks me from accessing the NMOCD page to find the status of submitted documents so if you are able to send it to me directly that would be greatly appreciated.

Thank you and I look forward to hearing from you,

Hello Gabrielle,

Thank you for the tickler on this issue. The original was found in a wrong file but it has been retrieved and is in the bonding groups hand.

I will process an RF Permit Number for you today or tomorrow. OCD apologizes for the delay and appreciates your patience.

Sincerely,

Bradford Billings

Subject: [EXT] McCloy West Recycling Facility

Good afternoon Brad and Daniel,

I am writing to see the status of NGL's McCloy West Recycling Facility permit. It was discussed that the bond was the correct bond for the facility and containment but that NMOCD needed to original with the signatures sent to the office in order for it to be processed. I spoke with the ladies at NGL that handled the permit and they stated that it was mailed on 6/13/2019 and received on 6/14/2019 and signed by M. Mascarenas who is stated as being in the mailroom. Attached is the confirmation from FedEx saying that it was successfully delivered to the NMOCD. We would really appreciate an update so that we can figure out next steps. Please let me know if you have any information or what we need to do from here.

Thank you,

Gabrielle Cowan
