**NAB1912738712 POKER LAKE UNIT 18 BD #123H @ 30-015-44895**

Good Morning Kyle,

The OCD has reversed the denial determination for the closure of incident # nAB1912738712. The reversal of this decision does not imply the OCD will continue to accept depth to groundwater assessments without data collected within the past 25 years from a well within a ½ mile radius. I have attached a revised copy of the C-141 reflecting closure approval of this incident. No further action is required at this time and the signed C-141 can be found in the online image data base under the incident #

Please let me know if you have any questions,

Thanks!

**Cristina Eads**

**OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.**
