NAB1831230353 SRO STATE COM #10H @ 30-015-38072

Mr. Tavaréz,

The OCD has denied the submitted Deferral Request C-141 for incident # NAB1831230353 for the following reason:

- Sample points FL 1 and FL 6 need to be delineated to a concentration of 600 mg/kg with respect to chloride before a deferral request will be considered. If necessary for obtaining deeper samples, offset the sample locations to as near as possible to the original locations.

The Denied C-141 can be found in the online image file. Please review and make the required correction prior to resubmitting through the fee portal. If you have any questions or believe this denial is in error, please contact me prior to submitting an additional C-141.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
