Latitude _____ Longitude _____

NATURE OF RELEASE

Type of Release Produced Water	Volume of Release 120 bbls	Volume Recovered 35 bbls
Source of Release 6" steel line with a Victaulic connection.	Date and Hour of Occurrence 12-4-12 1000am	Date and Hour of Discovery 12-4-12 1000am
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? Mike Bratcher- NMOCD; Jim Amos-BLM	
By Whom? Chris Jones	Date and Hour 12-5-12 0900 am	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	
If a Watercourse was Impacted. Describe Fully.*		
Describe Cause of Problem and Remedial Action Taken.* A Victaulic bolt vibrated loose at the junction box and production water was found leaking.		
Describe Area Affected and Cleanup Action Taken.* The leak happened in a junction box and so the majority of the spill happened and affected the area around the box. The leak amount was enough that it did run down the hill, but most of it stayed on the road. Wells were shut in and a vacuum truck was called to location to begin picking up standing fluid. A blade was also called to get up some of the initial contamination off the road as well.		
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

This is to inform you that Oxy Permian Primary had a spill of produced water at the Righthand Canyon 34 Fed 7 on December 4, 2012. Oxy released 120 bbls of produced water, 35 bbls was recovered. Leak was due to failure in the 6" steel transfer line. Oxy will have Jade do some initial remediation, a C-141 to follow. Jade Construction will delineate at a later date. REGULATORY LEASE # NM 83037 SECT 44 T22S R24E EDDY COUNTY NEW MEXICO GO WEST ON 137 AT MILE MARKER 41 TURN SOUTH GO 3.5 MILES, GO UP HILL, GO RIGHT AT FORK TO 2ND LEASE PAD.
