Describe Cause of Problem and Remedial Action Taken.*

The stuffing box packing on the well head blew out causing a release of 3 bbls of oil and 7 bbls of produced water. A vacuum truck recovered 5 bbls of fluids and the packing was replaced.

Describe Area Affected and Cleanup Action Taken.*

The affected area is approximately 80' x 45' on location around the well head. Remediation was completed in accordance with the remediation plan approved by Olivia Yu of NMOCD via email on 03/06/2017.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
