RE: 2RP-5136

Kyle,

Your request for an extension to March 28<sup>th</sup>, 2019 is approved.

Thank you,

Robert J Hamlet  
State of New Mexico  
Energy, Minerals, and Natural Resources  
Oil Conservation Division  
811 S. First St., Artesia NM 88210

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

**Subject:** [EXT] URGENT - Extension request Shocker 32 State Com #3H  
**Importance:** High

Mike,

XTO is requesting an extension to the 90-day timeline for completed remediation and closure report submittal required in 19.15.29.12.B.(1) NMAC at the Shocker 32 State Com #3H (RP# 2RP-5136). The release occurred on December 14, 2018. XTO began site characterization sampling on December 27, 2018. Due to the release being around an active flare, activities were postponed until work could be completed safely. Initial confirmation sampling data indicate additional excavation and soil sampling is necessary. XTO estimates final work and reporting can be completed within two weeks. The 90-day deadline from the release date is March 14, 2019. XTO requests an extension of this deadline until March 28, 2019.

If you have any questions, please let me know. Thanks. –Kyle
