---

Dakota,

The OCD has denied the submitted Deferral Request C-141 for incident # NRM1930839312 for the following reason.

- The V1 sample area needs to be vertically delineated to concentrations of 2,500 mg/kg TPH and 1,000 mg/kg GRO + DRO before this deferral request can be considered.

The Denied C-141 can be found in the online image file. Please review and make the required correction prior to resubmitting through the fee portal. If you have any questions or believe this denial is in error, please contact me prior to submitting an additional C-141.

Thanks,

**Cristina Eads**
