Amber,

We have received your closure report and final C-141 for **1RP-5527 Todd 15N Fed 14 Tie In**, thank you. This closure is approved.

The closure samples are below the closure criteria for soils impacted by a release. Again, the depths that have been excavated need to be labelled properly on the tables to match the report.

Please let me know if you have any further questions.

Regards,

Robert J Hamlet
