Hello all,

A full delineation both vertically and horizontally with laboratory data to reference will need to be provided to the BLM for review for this release.

Thank you,

Crystal Weaver

"3 percent of the water on this planet is considered freshwater. Of that 3 percent only 1 percent is considered accessible, meaning the majority of the remaining 2 percent is trapped in glaciers or snowfields." - National Geographic

The **BLM acceptance/approval does not** relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment or if the location fails to reclaim properly. In such an event that the location does not re-vegetate, or future issues with contaminants are encountered, the operator will be asked to address the issues until the contaminant issues are fully mitigated and the location is successfully reclaimed. In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state or local laws/regulations.

Subject: (Notification) LAGUNA SALADO 22 FEDERAL #005H 30-015-36738

Devon Energy is reporting release on the LAGUNA SALADO 22 FEDERAL #005H 30-015-36738

Section 22, Township 23S Range 29E 2030' FNL 1855' FWL

32.2922592,-103.9752045 NAD83

The Release occurred at 4/27/19 @ 11:48 pm.

Release site: 32.290278 -103.973056

Released: approximately 3 bbls produced water

Recovered: ongoing

This release occurred due to the failure of a poly flowline. The release occurred in a salt playa. Immediate response was deployed to recover any standing fluid. At this time we are still confirming the volumes released. This area is being evaluated and a C-141 will be submitted. If you have any additional questions please feel free to contact me.

Thank you,

Amanda Trujillo Davis
