NAB1914240573 ARABIAN 6 FEE #006H @ 30-015-39625

Jacqui,

The OCD has denied the Deferral Request C-141 for incident # NAB1914240573 for the following reasons:

- Sample points B3, B10, and B11 are not vertically delineated. The release area must be completely delineated to consider the deferral request.
- The depths of the sample points were not included in the report.

The Denied C-141 can be found in the online image file. Please review and make the required corrections prior to resubmitting through the fee portal. If you have any questions or believe this denial is in error, please contact me prior to submitting an additional C-141.

Thanks,

Cristina Eads

email: Cristina.Eads@state.nm.us

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
