**Subject:** [EXT] XTO Energy - Extension Request - AJ Adkins Tank Battery #3 (1RP-5638)

All,

XTO is requesting an extension to the current deadline of October 26, 2019 for submitting a remediation work plan or closure report required in 19.15.29.12.B.(1) NMAC at the AJ Adkins Tank Battery #3 (1RP-5638). The release was discovered July 28, 2019 and initial site assessment was conducted. Remediation by excavation is underway and final excavation activities and confirmation sample collection is expected to be complete the week of October 28, 2019. To provide enough time to review analytical results and complete a remediation work plan or closure report, XTO requests a 60-day extension of the current deadline until December 26, 2019.

Thanks,

Tacoma Morrissey
