Subject: XTO-Extension Request- Mis Amigos Battery (Incident Number NRM2030442941)

All,

XTO is requesting an extension for the current deadline of January 7, 2021 for submitting a remediation work plan or closure report required in 19.15.29.12.B.(1) NMAC at the Mis Amigos Battery (Incident Number NRM2030442941). The release was discovered on October 9, 2020 and initial site assessment was conducted. The most recent laboratory analytical results indicate further remediation work is warranted and XTO intends to drill a boring to confirm depth to water. In order to conduct further site assessment, allow time to drill the depth to water boring, complete the remediation work, and submit a remediation work plan or closure report XTO requests a 90-day extension of this deadline until April 7, 2021.

Thank you,

Kalei Jennings
