**Subject:** [EXT] NDHR1917957292 Extension Request

Ms. Eads,

Apache Corporation began remediation efforts in accordance with the approved remediation plan on 1/4/2021. The chloride contamination in the pasture has been removed and hauled to an OCD approved disposal facility. The hydrocarbons have been treated twice with micro-blaze but still have not achieved hydrocarbon closure criteria. Due to the amount of lines and limited access with equipment Apache Corporation would like to proceed to continue treating to obtain closure and reclamation standards. Apache Corporation would like to request an extension to 4/1/2021 to complete remediation. Please let me know if you have any questions or wish to discuss. Thanks and have a good day.

**BRUCE BAKER**
