If a Watercourse was Impacted, Describe Fully.	NA*				
Describe Cause of Problem and Remedial Action Taken. *	The dump failed on FWKO sending all produced fluids to the oil tanks causing tanks to overflow. Dumps on FWKO were repaired and trucks used to recover discharge.				
Describe Area Affected and Cleanup Action Taken.	All oil was confined within firewall around oil tanks. Free standing oil was picked up. Oil soaked dirt will be removed from firewall and disposed of. Fresh dirt will be put inside firewall. <i>To what depth? Remove contaminated soil until the soil looks clean. Call</i>				

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
