Mr. F. B. Umbarger  
711½ West Iron Street  
Albuquerque, New Mexico

Dear Sir:

We have received your letter of February 13 requesting forms required by the Oil Commission in drilling on State or fee lands. Under separate cover we are forwarding all the necessary forms as well as blanket or one-well bond to be approved by the Commission before drilling can proceed. Also enclosed are regulations of the Commission for your information.

In checking records of previous wells drilled by you in section 3, T.8 N, R.14 E, Torrance County, we would appreciate having up to date reports showing your intentions to deepen, complete, or plug and abandon. We are enclosing forms for your convenience, and we ask that you send us drillers logs as soon as possible.

We would appreciate receiving up to date information on these wells in order that we may give prompt approval to your new operation.

Very truly yours,

bpw

Secretary and Director

COMMISSION ON THE  
FUTURE OF THE  
NATION

REPORT

The Commission on the Future of the Nation was organized by the President of the United States in 1953. Its members were chosen from among the leading statesmen and scholars of the day. The Commission's task was to study the problems of the Nation and to propose effective solutions. The Commission's report is a landmark document in the history of the Nation. It is a clear and concise statement of the Commission's findings and recommendations. The report is divided into two main parts: the first part deals with the general principles of the Nation's future, and the second part deals with specific proposals for reform. The report is a masterpiece of statesmanship and scholarship. It is a document that has inspired generations of Americans to work for a better future for our Nation. The report is a must-read for anyone who is interested in the future of the Nation.
