Mr. Robertson,

Attached is a copy of a Work Plan for the RJU #136 release for your consideration. In terms of archeology concerns, how wide does the archaeology clearance cover past the existing pad and purposed excavation area? I am asking due to traffic concerns during excavation. Disturbance outside of the existing pad and excavation will be kept to a minimum and will be reclaimed in accordance to the work plan submitted. Please feel free to contact me with any questions or concerns.

Thanks!

Lupe Carrasco

Mr. Robertson:

At approximately 1:00 p.m. on 6/25/2014, a produced fluid release was discovered near the above-referenced well pad. An estimated 50 barrels of produced fluid was released. The cause of the release is currently under investigation. We will follow up within 15 days with a C-141 Report. GPS coordinates, legal description and driving directions are listed below. A Google Earth snapshot showing the nearest well pad, along with an estimation of the spill path is also attached for your review.

32.80307 104.06405

RJ Unit #142
Unit K Sec. 27
T17S R29E
1753' FSL & 2188' FWL
Eddy County, NM
API 30-015-37139

From Highway 82 traveling east toward Loco Hills, turn south on Standard Road. Travel approximately 1.1 miles, and turn west. Follow road to RJ Unit 142 well pad, just west of RJ Unit North battery. Release is on north side of pad.

Thank you.
