Amber,

Option 2 of this work plan is approved.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Subject: Dagger ZW Battery Pipeline (2RP-2257 & 2RP-2258)

Mike/Heather,

Please find attached a work plan for the releases that occurred at the Dagger ZW Battery Pipeline on March 29, 2014 (2RP-2257) and April 2, 2014 (2RP-2258).

Due to size issues, I had to attach all the analytical reports separately. Also as a result of the size issue, there will be another email with additional analytical reports.

Should you have any questions, please let me know.

Thanks,

Amber Cannon
