Heather,

Based on enclosed results of chloride delineation, upon NMOCD approval, Yates will conduct remedial action per the Work Plan, Scope of Work (September 22, 2014), with four (4) feet of impacted soils being excavated and taken to an NMOCD approved facility, then backfill with two (2) feet of compacted caliche as a barrier to prevent vertical movement of chlorides then two (2) feet of like topsoil as a vegetation cover.

Thank you.

Mr. Asher,

The OCD needs to review the full delineation of chlorides before a final remedy can be approved for this site.

Heather Patterson

Mike,

I will contact you for any questions concerning the scope of work within the attached work plan.

Thank you.

Robert Asher
