Kimberly,

The work plan for this site is approved with the following exceptions:

- Confirmation samples in the area of S-3 must also include TPH to ensure all hydrocarbon RRALs are met;
- OCD must review and approve confirmation samples in the areas of S-3 and S-4 prior to backfill.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Heather Patterson
Environmental Specialist
NMOCD District II
(575)748-1283 ext.101
