Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	
If a Watercourse was Impacted, Describe Fully.*		
Describe Cause of Problem and Remedial Action Taken.* A split in the polyline caused the release of produced water. The polyline was fused back together and a vacuum truck dispatched to pick up any standing fluids and dispose of at an NMOCD approved facility.		
Describe Area Affected and Cleanup Action Taken.* The impacted area was approximately 27' x 300' along the road. Concho had the spill site sampled to delineate any possible contamination from the release and presented a remediation work plan to the NMOCD and the BLM for approval prior to any significant remediation work. All work has been completed in accordance to the approved work plan.		
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
