Re: GJ West Coop #92 Battery

Sec. 28, T17S-R29E Eddy County, NM

Mr. Bratcher,

COG Operating LLC would like to submit the enclosed document for closure of the above captioned well. The plan is in response to the C-141 initial report dated December 3, 2014.

All work has been completed in accordance with the approved work plan submitted to the NMOCD along with the stipulation of a 2' excavation of the pad area.

A signed C-141 is enclosed for your consideration. Please feel free to contact me with any questions or concerns at (575) 748-6933.

Sincerely,

Lupe Carrasco

Environmental Coordinator

If YES, Volume Impacting the Watercourse. ☐ Yes ☒ No If a Watercourse was Impacted, Describe Fully.* Describe Cause of Problem and Remedial Action Taken.* This release was caused by a gasket failure on a heater treater. The process equipment was repaired and vacuum trucks were dispatched to pick up any standing fluid. All fluid was disposed of at an NMOCD approved facility. Describe Area Affected and Cleanup Action Taken.* Most of the released fluid was contained within the lined facility. However there was some impact outside of the lined area to the east of the facility of the pad. Concho had the spill site sampled to delineate any possible contamination from the release and presented a remediation work plan to the NMOCD for approval prior to any significant remediation work. All work has been completed in accordance to the approved work plan and stipulations requested. I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
