RE: Limerock * Windfohr 4 Fed #12. 30-015-42037 * 2RP-2968

David,

Your work plan is approved as written. Please advise if excavation depths are not met. Like approval by BLM is required for this site.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Hello,

Attached please find our proposed work plan for the above referenced Lime Rock incident. This release was caused by one of Lime Rock's subcontractors and consequently they are anxious to move on this project as soon as possible. Thank you in advance for your time on this one. Please let us know if you have any questions. Thank you.

Respectfully submitted,

David J. Adkins
