RE: Linn * Barclay Fed #27 * 30*015*30883 * 2RP-2969

EL,

This proposed work plan is approved with the following stipulations:

Please provide a lab sample at SP2 at 3' to ensure the hydrocarbons have cleaned up. If TPH is above RRALs, a deeper excavation may be necessary.

Vertically delineate the chlorides at SP2.

Place a liner in the area of SP2 before closing this excavation.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Subject: Work plan for the Barclay Fed #27

Mr. Akin,

Attached is the work plan for the Barclay Fed #27. Please review. Let me know if there are any changes you would like. Thanks

The estimated cost for the plan as written.

3 days to complete.

Estimated DFSI cost. \$11,148.00

Estimated disposal billed directly to Linn. \$1,800.00

Total estimated cost without tax approx. \$12,948.00

Please keep in mind that this is an estimate and does not take into account changing conditions and or unforeseen events. Thank you.

Mike Burton
