------------------	---------------	-----------------	--------------	-----------------------	---------------------------	-----------------------	------------------------	----------------

Latitude 32.625402 Longitude -104.10611632

#### NATURE OF RELEASE

Type of Release: Oil/produced water	Volume of Release: estimated 10 bbls total fluid	Volume Recovered: 5 bbls total fluid
Source of Release: Compressor separator	Date and Hour of Occurrence 3-9-15	Date and Hour of Discovery 3-9-15 9:30 am
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? Mike Bratcher & Ian Dolby	
By Whom? Zack Thomas	Date and Hour 3-9-15 1:45 pm	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	
If a Watercourse was Impacted, Describe Fully.*		
Describe Cause of Problem and Remedial Action Taken.*		
Cause of the leak- Gas pressure to dumps on separation equipment was lost sending fluid to compressor separator. Compressor separator in turn vented fluid onto ground. Upon arrival pumper closed the vent line stopping the release. Vent line was then re-routed to water tanks.		
Describe Area Affected and Cleanup Action Taken.*		
Affected area- Fluid ran onto pad surface on North side of compressor before running off the pad an estimated 200 ft. out into the pasture. 5 bbls of total fluid was recovered from pasture via vacuum truck. Clean up action will include removing contaminated soil to NMOCD regulation standards and replacing with clean backfill then reseeded.		
Remediation activities conducted at the Mirage 30 PM St. Com #1H Battery release site met the objectives set forth by the NMOCD. Please reference the Closure Report, dated May 7, 2015, for details of remediation activities and the results of the confirmation soil samples.		
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
