**Date:** Wednesday, June 24, 2015 2:57:51 PM

---

Ms. Patterson,

We apologize for not submitting a C-141; the reason we did not is the spill was approximately 1 bbl, and with the low volume we did not think a C-141 was required.

The lease has been cleaned up under Bill Dougherty's supervision (Nadel and Gussman's NM Field Superintendent). I spoke to Bill and as he has been on the location, saw the spill, and supervised the clean up, I asked him to get in touch with you. He said that you and he did speak by phone. Bill said that you asked that he submit current pictures so that you can see that the lease has been cleaned up, and that a C-141 was not required due to the low volume.

If any of the above is incorrect, pls let me know. If all of the above is correct, Bill will be taking pictures this afternoon and will send to you tonight or tomorrow morning.

Thanks, Joel Martin

Mr. Martin,

Our field inspector, Tony Morales, came upon this release and was told that it was reported to the OCD. I don't see that the OCD ever received a C-141 for this site. Can you please submit the initial C-141 and any other subsequent remediation plan you may have?

Thank you,

Heather Patterson
