Subject: RE: Holly RJU South Crude Oil Release - Site Closure Plan Approval Request RP #?
Date: Tuesday, April 22, 2014 3:39:23 PM

Mike:

Your prompt response is appreciated – I have cc'd Mr. Amos with the BLM and will keep you both apprised of the delineation and restoration activities.

Sincerely,

Tom Larson

Mr. Larson,

Your request to perform delineation at the referenced release site is approved. BLM approval will be required on Federal sites. This release event has not yet been assigned an RP number.

If you have questions or concerns, please contact me.

Subject: Holly RJU South Crude Oil Release - Site Closure Plan Approval Request RP #?
Importance: High

Mr. Bratcher:

Attached you will find a Site Closure Plan for a Holly Energy Partners crude oil release 4 miles SW of Loco Hills, NM. We have discussed this cleanup – note that I was not able to provide an Remediation Permit # to the letter as the OCD has not yet assigned one. If you have time, please

provide the RP number for future reference. Basically a 'dig and haul' project in the sands south of Loco Hills. Groundwater is not an issue out here – so a pretty straightforward cleanup is what we discussed.

You should also receive electronic and a paper copy of this document today 4/22/14. CRA, **on behalf of Holly, requests OCD approval of this Closure Plan** so that work can begin at the site as soon as possible. Jim Amos with the BLM has also been contacted and advised that an archeological survey has been performed along the Holly pipeline in this location. He is asking us to notify him to ask permission to excavate on the BLM in advance of the field activities and prior to backfilling to arrange for site restoration activities. I'll keep both parties apprised as the project develops.

Thanks in advance for your considerations and let me know if you have questions – and if OCD can approve the Site Closure Plan.

Regards
