Describe Cause of Problem and Remedial Action Taken.\*

**The pipeline relief valve activated and sprayed liquid over the surrounding area. No pipeline or valve damage occurred, so no repair activities were necessary.**

Describe Area Affected and Cleanup Action Taken.\*

**Excavation was performed on areas where liquids penetrated the ground. Over-sprayed areas were treated with Microblaze. Soil sampling was performed, and the analytical results demonstrate that remediation actions meet NMOCD remediation levels. A corrective action report, including analytical documentation, is included as an attachment to this form.**

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
