This closure request is approved.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Subject: OXY GAINES 22 CLOSURE

Good Morning,

I have attached the closure report for the above site with API #30-015-35186. This one almost slipped by me. Since Chris Jones is no longer with Oxy, I had to track down the correct party to sign the final C-141. At your convenience, please review and let me know if you have any questions.

Thank You

Rebecca Pons
