Subject: RE: Sandlott Energy Lease Issues.
Date: Friday, July 10, 2015 2:36:35 PM

Ian,

I have talked with Jackie Brewer (dba Sandlott Energy), I believe three times now. The latest conversation was earlier today. He had indicated during our first conversation that the reason he had not cleaned up the releases when they occurred, is because his backhoe is broke down. Today he told me that he had rented a backhoe and everything has been picked up and hauled to a disposal. He also indicated that he would fill out the Form C-141 spill reports this weekend and get those to me next week. I told him I would try to get out there next week after things dry up from recent rains. You might want to go out if you get a chance and see if it looks much different.

Mike and Heather, have you heard anything back from Sandlott Energy regarding the numerous issues on their leased tract of State Land? I had initially identified the company as Khody Land & Minerals Company, I think our records are a bit out of date. I've attached my initial spill report for reference. Thank you.
