Zack,

This proposal would have to be approved by BLM as well, but at this time, OCD requests any data R&A may have available on work done in New Mexico. Also, OCD will want to see a traditional delineation of the site prior to making a determination as to the utilization of this process.

Thanks,

Mike Bratcher

Guys,

Attached is the bio remediation proposal I was talking about last week. I'm extremely excited to see this product work as I have heard so many good things about it. Upon your approval work will most likely begin next week. Thank you and if you have any questions or concerns feel free to contact me.
