Re: COG * Burch Keely Unit #530 * 30-015-39519 * 2RP-3137

Lupe,

Your work plan for the above listed site is approved as written. Keep in mind as you continue your delineation at sample point S3, that chloride delineation goals are 250mg/kg.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.
