Thank you Pam,

Your backfill request is approved.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Sorry, Heather. I neglected to provide you that info. The background sample was from the surface. All of the other sampling points were taken at 1-1/2' deep.

Thanks,

Pam

Pam,

Are these samples from the surface or from the bottom of your excavation? If they are from the excavation, how deep is that excavation?

Hi, Heather.

As requested, attached is a site map detailing the sample points. Please advise, should you need anything further to approve for excavation and backfill..

Thanks,

Pam

RE: BTA * Pardue D, 8808 JV-P #1 * 2RP-3200

Ms. Inskeep,

I cannot approve your backfill request without a little more information. I will need a site map showing each one of your data points on it, and a description of the work done (depth of excavation).

Thank you,

Good morning.

Attached, please find copies of the sample analyses performed at this site on 9/10/2015.

Please review and advise as to approval for excavation and backfill.

Thanks,

Pam

BTA * Pardue D 8808 JV-P #1 * 30-015-26274 * 2RP-3200

Ms. Inskeep,

The OCD has received and processed your initial release notification for the above listed site. In the C-141 it is stated that BTA will excavate the contaminated soil and replace with clean soil. The OCD will require a full delineation at this site to be submitted in a work plan to the district 2 office before this site is excavated and backfilled. The OCD tracking number for this incident is 2RP-3200.

If you have any questions or concerns, please don't hesitate to call.

Thank you,
