Gentleman,

Please find the enclosed Work Plan for the above reference spill site located in Eddy County, New Mexico. The spill have been assessed and the remedial recommendations are included in the work plan. I will mail you a hard copy of the work plan for your files. Once approved, Tetra Tech will schedule the soil remediation and notify you prior to implementing the work plan. COG would like to start the remediation in a couple of weeks. Please let me know if you need additional information or call me if you have any questions
