NATURE OF RELEASE

Type of Release: Oil & Produced Water	Volume of Release 11 bbls	Volume Recovered 6 bbls
Source of Release: Separator	Date and Hour of Occurrence 07/22/2015	Date and Hour of Discovery 07/22/2015 16:30
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? NMOCD - Thomas Oberding; BLM - Jim Amos	
By Whom? Wendy Acosta Quintero	Date and Hour 07/23/2015 10am	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse. N/A	
If a Watercourse was Impacted, Describe Fully.* N/A		
Describe Cause of Problem and Remedial Action Taken.* <p>At approximately 4:00 PM, separator pressure was adjusted, which caused the flare at the battery to go out. When a cloud of gas coming from one of the separator lines was noticed, well was shut in. After deeming safe conditions, lines were checked to identify leak source and a hole approximately 1 1/2 inches in diameter on the underside of the pipe from the water leg was noticed. It made a hole on the ground about two feet in diameter and 1 1/2 feet deep and spilled approximately 11 bbls (9 bbl produced water and 2 bbl oil).</p>		
Describe Area Affected and Cleanup Action Taken.* <p>Tetra Tech inspected site and collected samples to asses & define the spill extent. Soil that exceeded RRAL was removed and hauled away for proper disposal. Site was then brought up to surface grade with clean backfill material. Based on the results, Tetra Tech prepared closure report and submitted to NMOCD for review.</p>		
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
