---

Tim,

I'm a little confused about this release. We have two releases at this site that are only a few days apart and are very similar. I've attached the C-141's. Your work plan lists 2RP-3281, but has the details of 2RP-3264.

Can you and Heather review these and make sure a) there are truly two separate spills, not one that was reported twice, and b) if there are two separate spills, which one your work plan covers (if not both).

That said, this CAP is approved as written. Please send confirmation samples to OCD for approval prior to closure request.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Good Morning,

Attached is the corrective action plan for the release on Memorial's NSLU 100 that occurred on 9/14/15. Let me know if you have any questions or concerns. Have a good weekend!

Thanks,
