Subject: RE: OXY Lost Tank 33 Federal #2 SWD - Remediation Plan

RE: OXY USA * Lost Tank 33 Fed 2 SWD * 30-015-29330
2RP-3291 * Date of release: 9/3/2015

Cliff,

Your proposal for remediation of the above referenced release is approved. Please advise if proposed excavation depths are not achieved. Federal sites will require like approval by BLM.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Subject: OXY Lost Tank 33 Federal #2 SWD - Remediation Plan

Dara,

I am sorry that we didn't get a chance to discuss this site in person on Thursday so I have attached a remediation plan packet. You will find a cover page describing the remediation plan and then a site diagram depicting the plan along with lab summaries, lab data, and other associated materials. This plan has been discussed and approved verbally by Mike Bratcher of the NMOCD and I would like to receive the BLM's approval of this plan as well.

If you would please review the plan and reply back with the BLM's approval, it would be greatly appreciated. If you have any questions, please let me know.

Mike, if you would please reply via email with your written approval as well, it would be appreciated.

Thanks, Cliff
