EL,

Your proposal for remediation, dated December 4, 2015 (prepared by DFSI) is approved. OCD requests the liner be placed at 4' bgs instead of 3' as proposed. Federal sites will require like approval by BLM.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.
