---

Heather and Fred,

I have identified an older release on the Federal KLM battery that was reported under the former operator, Boaz Energy.

pJMW1326351707	2R - Remediation Permit - Artesia	Now Memorial. Effective area: around circulation pump	2RP- 1922	7/27/13	BOAZ ENERGY, LLC	Federal KLM	30- 015- 04411
----------------	--	---	--------------	---------	------------------------	----------------	----------------------

This release happened in the same location as a current clean up you are performing for 2RP-3188. I think it makes sense to get this older release off the books by including it in the closure report of the more recent spill. I have included the Initial C-141 for your reference.

Thank you,

Heather Patterson
