RE: Linn Energy \* Turner A 43 \* 30-015-28793  
2RP-3059 \* Date of release: 6/15/2015

EL,

Based on analytical data provided, OCD does request a 1' excavation at the area identified as SP1, with impacted materials transported to an approved disposal. This incident will then be deferred to abandonment. Federal sites require like approval by BLM.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.
