Natalie,

Since this project is relative to a final reclamation on a Federal well site, and not to a specific Form C-141 reportable release, OCD approval is not necessarily required, however, OCD does concur with BLM approval of the proposed remedial method. Please copy OCD on future correspondence and reports. An RP number will be generated for documents to be imaged and made available, associated to this well site, on OCD Online, for documentation of work performed.

Thank you,

Mike Bratcher
