Subject: Foster FF On-Site Meeting
Date: Wednesday, May 13, 2015 3:30:53 PM

Mike,

I would like to schedule an on-site meeting at the Foster FF on Wednesday, May 20, 2015 at 2:00 PM to discuss further delineation sampling per our meeting on February 4, 2015. I conducted a site check yesterday to mark GPS points from the two previous sample events (9/4/2014 & 10/14/2014) and observed the following for discussion.

Vegetation regrowth within the excavated areas of the pipeline ROW and excavation edges. After on-site meeting discussion, further sample points for delineation purposes. General overview of excavation area (based on the site ranking of Zero with depth of ground water being greater than 100'; approximately 175' per the ChevronTexaco Trend Map).

I will contact Kevin Wilbanks of the meeting date and time also.

Please note that there are no enforceable chloride standards within the New Mexico Oil Conservation Divisions, Guidelines for Remediation of Leaks, Spills and Releases (August 13, 1993).

Thank you.

Robert Asher
