Good Morning,

I will do the follow up on this location. Shelly nor I do not have any information on the second incident. Can you send any pertaining documents to include the C141 for the most recent spill? Thank you for your assistance.

Mike,

The second release was in the same footprint as the first on the site map. I have attached the lab data for the first release.

RE: Devon * Cotton Draw 135H *

2RP-3437 * Date of release: 11/30/2015

Kimberly,

Devon has had another release at this site that appears to have occurred in the same area as the 11/20/15 release. The tracking number for the 2nd release is 2RP-3551. The spill path was not marked on the site diagram submitted by Devon, but both releases are associated with the LACT Unit. Please advise as to area impacted on the 2nd release (release date: 1/12/2016) in comparison with the 1st release.

Thank you,

Mike Bratcher
