**Subject:** Re: OXY Lost Tank 33 Federal #2 SWD - Remediation Plan

Cliff,

BLM approves the remediation plan as submitted. Please let me know when you will be beginning work.

Thank you.

Dara

**The BLM approval/acceptance does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment or if the location fails to reclaim properly. In such an event that the location does not revegetate, or future issues with contaminants are encountered, the operator will be asked to address the issues until the contaminant issues are fully mitigated and the location is successfully reclaimed. In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state or local laws/regulations.**

Dara,

I am sorry that we didn't get a chance to discuss this site in person on Thursday so I have attached a remediation plan packet. You will find a cover page describing the remediation plan and then a site diagram depicting the plan along with lab summaries, lab data, and other associated materials. This plan has been discussed and approved verbally by Mike Bratcher of the NMOCD and I would like to receive the BLM's approval of this plan as well.

If you would please review the plan and reply back with the BLM's approval, it would be greatly appreciated. If you have any questions, please let me know.

Mike, if you would please reply via email with your written approval as well, it would be appreciated.

Thanks, Cliff
